Sponsorship Testimonials!

"The LearnShare Conferences are going very well for us and we are committed to a future with you guys. We have been getting excellent feedback as well. I hope that we can become a reason that people attend."

--Visum (Premier Sponsor at all 2004 & 2005 Sharing@LearnShare Conferences)

"I wanted to write a quick note thanking you and your team for such a terrific conference two weeks ago in Atlanta. The venue was a perfect serene setting for professionals to come together, share best practices, network and have fun."

From a pure networking standpoint, our Business Development Directors have now had introductions to Pitney Bowes, John Deere, Yum, Capital One, Home Depot and Cingular.

Bringing us together to share topics around learning, employee development, content development etc. fosters collaboration and that sense of comfort knowing "we're not alone in our respective business challenges"

I applaud LearnShare for the tremendous effort that went into this event and look forward to subsequent LearnShare conferences."

--Lionbridge (Platinum Sponsor at all 2004 & 2005 Sharing@LearnShare Conferences)

"The LearnShare conferences have been catalysts for Knowledge Factor's successful marketing and sales program. Through LearnShare, we have been able to connect with key people in the training industry that we are interested in reaching and who are interested in reaching us. This has given our company more visibility and traction than any other effort we have undertaken to date and has become a centerpiece for our plans moving forward."
